Organizational memberships offer corporations, companies and government agencies the opportunity to purchase an ISSA membership for an employee. Unlike General and CISO Executive memberships, which belong to the employee, Organizational memberships belong to the employer and can be transferred as reassignments occur. When an employee is assigned to an Organizational membership, he or she has all of the rights and privileges of a General Member including the rights to vote and hold office.

With the purchase of 20 or more memberships, your organization will receive discounts of up to 20% and complimentary postings on ISSA's Career Services Center. You can also synchronize renewal dates for all of your employees to reduce administrative time and expense. All membership dues are non-refundable. Discounts and flat fee programs available with 20 or more memberships. *Please contact [orgmember@issa.org](mailto:orgmember@issa.org) for group rates.*

## Student Membership: \$30

Student members are full-time students in an accredited institution of higher learning. This membership class carries the same privileges as that of a General Member except that Student Members may not vote on Association matters or hold an office on the ISSA International Board. There is no restriction against students forming a student chapter.

## CISO Executive Membership: \$995

The role of information security executives continues to be defined and redefined as the integration of business and technology evolves. While these new positions gain more authority and responsibility, peers must form a collaborative environment to foster knowledge and influence that will help shape the profession. ISSA recognizes this need and has created the exclusive CISO Executive Membership program to give executives an environment to achieve mutual success. For more information about CISO Executive Membership and required membership criteria, please visit the CISO website – <http://ciso.issa.org>.
